## Procut-60

SR.NO.	DESCRIPTION	PROCUT-60	PROCUT-80
1.	Maximum core length	1524mm (60")	2000 mm (80")
2.	Maximum core wall thickness	15mm (0.6")	15mm (0.6")
3.	Cutting speed	40 cut/min	40 cut/min
4.	Indexing speed	2.2 meter/min	2.2 meter/min
5.	Indexing method	Stepper or servo motor	Stepper or servo motor
6.	Cutting accuracy	±0.1 mm (0.004")	±0.1 mm (0.004")
7.	Control	7" touch screen HMI	7" touch screen HMI
8.	Drive motor	2 hp	2 hp
9.	Power supply	220 V AC single phase	220 V AC single phase
10.	Compressed air	6 bars	6 bars
11.	Machine dimension (LxWxH)	200X65X140 Cm	260X65X140 Cm

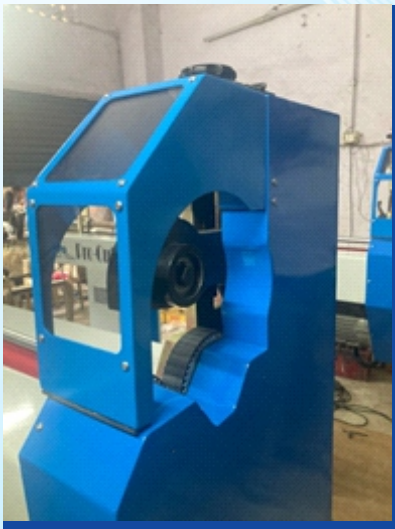

The Pro-Cut 60 is a semi-automatic core cutter that is ideal for customers looking for a high-quality, accurate finish with a minimum amount of operator input. It has quick and easy settings for different core diameters and wall thicknesses. The Pro-Cut semi-automatic core cutter also has the ability to cut cardboard, paper and plastic cores.

Low maintenance and high productivity are the main feature of this machine, high quality pneumatic from SMC Japan and variable speed motor make easy to achieve all type of core cutting possible in this machine.

Providing recipe mode in the touch screen HMI become operator friendly to start the new production without any more repeat programme setting.

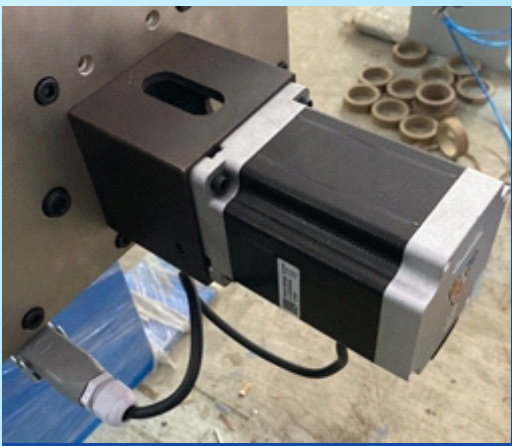

We provide many different modes in the operation to use each for particular production requirement, such as equal length cutting mode, variable length cutting mode, multiple of each length cutting and manual cutting mode, metric and imperial length setting is also possible, smooth edge cutting finish and accurate length is main feature of this machine, patented thin bevel custom made circular blade design to meet all your cutting requirement in one machine, Only worlds reputed brand components used in this machine, long durability and maintenance free engineering is peace of mind for any kind of future maintenance

**SAFETY COVER**

**HIGH PRECISION BALL SCREW**

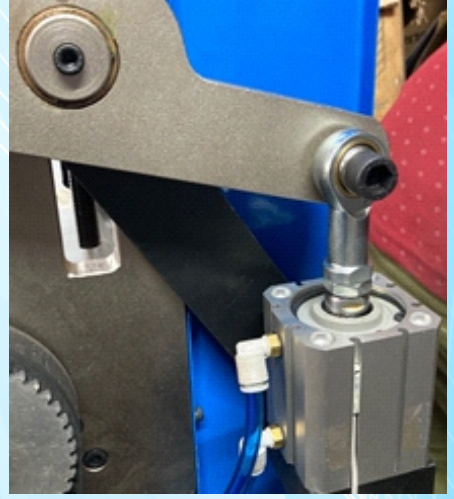

**HIGH QUALITY STEPPER MOTOR FOR INDEXING**

**SIEMENS DRIVE MOTOR**

**BRANDED PNEUMATIC COMPONENTS FROM SMC JAPAN**
